

## Project Overview:

The expansion and enhancement of services at Riverside Shore Memorial Hospital over the years has greatly impacted Shore residents options and care. With multiple new departments and ancillary services this transitional period has created many new opportunities and diversification within the system. Structureworks was able to be a part of this process by helping to finish the exterior of the hospital with a low-maintenance Trex Pergola that mimics the building's modern architectural detail providing a shady respite away from the fast paced, bustling environment inside.

 Virginia Beach, VA

 Trex Pergola

 Ocean Drywall, Inc.

 \$82,000

 Summer, 2016

## Pergola Specifications:

Attached Trex Pergola

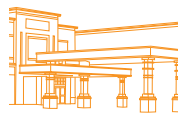

57'-2" wide x 10'-9" projection

14" x 10' square fiberglass columns

## Challenge:

Riverside Shore Memorial Hospital was looking for a large, low-maintenance structure that would enhance the architectural look of the building and provide a shady retreat for hospital staff and guests to relax outdoors. Structureworks addressed the following challenges:

Provide exterior shade and reduce interior heat gain

Add to building's architectural appeal

Easy care and maintenance

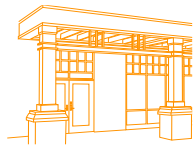

Engineered for safety and durability

Create shady outdoor space to promote health

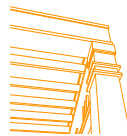

## Solution:

Structureworks and Ocean Drywall, Inc. worked together to create a shade structure that would enhance the exterior of the hospital with visually similar detail. Staff and patients now have the option to enjoy time in the sun or, if heat is a concern, there can be plenty of seating beneath the structure for seasonal enjoyment.

Placement over entry points

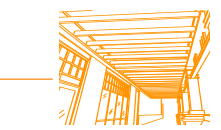

Adopt current exterior detail for cohesive design

Low-maintenance ColorLast finish for easy care

Fully engineered design

Create a sense of enclosure and zone of transition

## Benefits:

Riverside Shore Memorial Hospital has grown to meet the demands of the community with a state-of-the-art Emergency Department, Intensive Care unit and other important departments and ancillary services. This has helped the hospital create new opportunities by expanding and enhancing services to Shore residents. The addition of this shade structure is another way the hospital has extended its care to staff, patients and visitors providing them the option to relax in a serene, outdoor space for both physical and mental health. Grab lunch, pull up a chair and breathe in the fresh air under this beautiful, low-maintenance, Trex Pergola.

Since 1990, Structureworks Fabrication has been designing, creating and hand finishing beautiful outdoor structures using premium components. Using proven engineering practices, innovative designs and advanced manufacturing techniques, Structureworks has become the leading producer of pergola kits for residential and commercial outdoor living environments. By controlling design and manufacturing we are able to ensure the quality of every product as a primary function of what we do.
