

Wharf 7 Apartments

Project Overview:

Boasting beautiful views and peaceful surrounds, this young island town offers endless outdoor attractions and warm sea breezes. Wharf 7 is a Charleston apartment community situated on Daniel Island near Governor's Park. With amenities like the saltwater pool, amphitheater and distinctive shade structure with airfoil rafters, there is never a dull moment. The shade structure creates protection from the sun and provides visual interest to the common area. Structureworks helped complete the space with a low-maintenance, powder coated aluminum Serenity, able to withstand all that coastal living has to offer.

Pergola Specifications:

Freestanding Serenity
26' wide x 8' projection
8" x 10' square aluminum columns
Powder Coat Finish in Pompeian Gold

Challenge:

Wharf 7 Apartments wanted a unique space that residents could relax in where the green grass and blue sky were kept in mind. Shady seating was important in this comfortable clubhouse setting for long leisurely days spent outdoors. Structureworks addressed the following challenges:

Protection from coastal sun

Easy care & maintenance

Define space for lounging

Enhance current sophisticated style

Engineered for safety and coastal winds

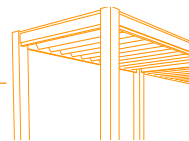

Solution:

J. Banks Design and Structureworks created a low-maintenance shade structure that would provide shady cover for residents and community events. The unique rafters, subtle detail and minimalistic feel integrates seamlessly into the outdoors for a stylish community hang out.

Modern, minimalistic design

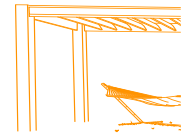

Airfoil rafters for greater shade coverage

Low-maintenance powdercoat finish for salt air

Fully engineered design

Provide cover for hammocks beneath

Benefits:

These seaside apartments offer a maritime culture and charming personality with a unique island feel. With a beautiful Clubhouse complete with saltwater pool, grand lawn, fitness center and hammock garden, there is something for everyone both indoors and out. The modern, sophisticated outdoor space brings community together for concerts, local farm markets and swimming. Drawing avid readers and evening star gazers, the low-maintenance aluminum, shade structure with simple architectural detail provides stylish cover for the hammock garden. It may just be the perfect spot to catch a cool ocean breeze, relax and soak in everything beachside.

Since 1990, Structureworks Fabrication has been designing, creating and hand finishing beautiful outdoor structures using premium components. Using proven engineering practices, innovative designs and advanced manufacturing techniques, Structureworks has become the leading producer of pergola kits for residential and commercial outdoor living environments. By controlling design and manufacturing we are able to ensure the quality of every product as a primary function of what we do.
